

## Safari by Landrover

Every Wednesday, we offer an unequalled day jeep tour excursion from C6mpeta into the Natural Park. With groups of a minimum of 3 persons and a maximum of 8.

In the morning we drive through steep trails by Landrover into the mountains; after approximately 1½ hours, we arrive at an altitude of 1.500 meters on the edge of the massif. We stop at a plain called Tajos de la Chapa from where there are fine views of local and more distant surroundings. To the north, we look deep into the province of Granada; in the east, we see the Sierra Nevada (Pico del Veleta with an altitude of 3.394 meters); and when the skies are clear, we can see Africa (the Rif mountains in Morocco) from a distance of 160 kilometers in the south and the coastal area up to Gibraltar in the west. Closer by, we can see the entire Axarquia area with its numerous 'pueblos blancos' and in the natural park, the 'cantera de marmol' (marble quarry).

After this stop, we drive on a track along the edge of the massif in a westerly direction. We pass the Puerto de Santiago and arrive at an altitude of 1.600 meters at the Llanadas de Sedella. **The views from here also are unforgettable.** The driver of the Landrover will provide an extensive picnic lunch. Those who like to walk may climb from this point in slightly less than 2 hours to the top of the Maroma (2,067 meters). This is a spectacular walk, especially at the Salto del Caballo, halfway through the journey. The driver of the Landrover will be happy to accompany you as a guide; he keeps a sharp eye for more dangerous spots and, if you bring a camera he will take your photo on the mountain summit. There is great opportunity to see wildlife, particularly animals like ibex, vultures, or ravens. Walkers will eat their lunch on the top of the mountain.

About 3½ hours later the group will regroup and we will all drive back to C3mpeta, approximately a 2-hour trip. Whether you reach the top of the Maroma or not, this day excursion is a **unique and unforgettable experience**.

N.B. this day excursion will only take place with a minimum of 3 persons and when weather conditions permit!
